Wagon ovens - Made in Parchim

For more than 100 years, we have been making ovens in Parchim and, in the meantime, we can also look back on 20 years of experience with thermal oil technology.

Our ovens are heated with thermal oil, which is heated in a separate boiler by means of natural gas, crude oil or electrical energy. A very good heat utilization factor is common to all systems. The wagon oven is a reliable product.

There are various models of ovens, with one, 2 or 3 trolleys.

- Easy to use thanks to a large touchscreen, optional control of all functional processes
- Controls right next to the oven door
- Short operating paths
- Powerful steam plant with optimised steam distribution

A well-established classic among thermal oil ovens.

- Patented heating plates, made by our own production department
- Turbo comes as standard
- 3-fold deep wagon ovens with feeding equipment as standard, robust and low-maintenance
- Customised dimensions possible after prior consultation
- Manufacture and full assembly in the bakery all from one source

Oven type	WO 08.12,5	WO 08.18,5	WO 10.12,5	WO 10.18,5
Surface area W x D	1200 x 1800 mm	1200 x 2450 mm	1400 x 1800 mm	1400 x 2450 mm
Baking trays W x D	580 x 780 mm	580 x 780 mm	580 x 980 mm	580 x 980 mm
Baking surface and effective depth				
with 7 racks	7 m ² / 205 mm	10,5 m ² / 205 mm	8,75 m ² / 205 mm	13 m ² / 205 mm
with 8 racks	8 m ² / 175 mm	12 m ² / 175 mm	10 m ² / 175 mm	15 m ² / 175 mm
with 10 racks	10 m ² / 130 mm	15 m ² / 130 mm	12,5 m ² / 130 mm	18,75 m ² / 130 mm
with 12 racks	12 m ² / 100 mm	18 m ² / 100 mm	15 m ² / 100 mm	22,5 m ² / 100 mm

Customised dimensions according to customer specifications also possible.
